Publications from Sound Foundations:

NEW

...is a revolutionary new synthetic phonics programme for pupils with complex learning difficulties. It will work with pupils who have made little or no progress with learning letters, and who cannot 'blend' sounds into words.

You cannot use **Bearing Away** without the starter pack, which contains our new multi-sensory letter tiles. The books are consumable, but you will only need one starter pack per school.

The **dancing bears** decoding series

(All decoding books are consumables, designed for one-on-one teaching)

bear necessities...

... is an "Industrial Strength" version of **Dancing Bears A**. It is suitable especially for Reception pupils and older pupils with severe dyslexia.

dancing bears A...

... the beginning decoding book for non-readers and slow readers.

dancing bears B...

...teaches word attack skills for longer words, and more advanced spelling patterns. It follows either **Dancing Bears A** or **Bear Necessities A2**.

FAST TRACK..

...is a condensed version of **Dancing Bears A** and **Dancing Bears B**. It is suitable for poor decoders who have a reading age of at least 7 years.

dancing bears C...

...teaches advanced decoding skills. It follows either **Dancing Bears B** or **Fast Track**.

The **apples & pears** spelling series:

Each level of **Apples and Pears** consists of a reusable book of **Teacher's Notes** plus consumable **Student Workbooks**. They can be used for one-on-one teaching or they can be used with groups of pupils who are well-matched for ability.

Level **A** and Level **B** are suitable for Infants, as well as older pupils with special needs. Level **C** and Level **D** are suitable for Juniors and above.

Please ask for a placement test or visit our website.
